Jen Reid-Schram

Founder, LevelUp | Coaching senior leaders to use AI in ways that move the needle for their business | Moderately Fearful Adventurer
Portland, Oregon, United States

Summary

Most AI training for leaders fails for the same reason you've bookmarked six courses you haven't started: it's not built for someone with your schedule, your role, or your actual goals. I run LevelUp Learning Experiences. I design custom 1:1 coaching programs for senior leaders who are expected to "make AI real" but need hands-on skills to back it up. You don't need to become an engineer, but you do need to know enough to differentiate the high-value use cases from the "let's just add a chat interface" solutions. Before this, I spent seven years scaling a global technology organization at Cirium as VP of Technology. I managed a \$25M budget, built distributed engineering teams, and partnered with product to launch the company's first GenAI product. I know what it's like to be the executive who's supposed to drive AI adoption while running the rest of the business. I also know what happens when you hand that responsibility to someone without giving them the right support. (It does not go well.) If you're a senior leader at a tech-enabled company and you're tired of AI being a topic you nod along to in meetings instead of something you can actually use, let's talk. Or at minimum, go read something on the LevelUp site. If it resonates, you know where to find me :)

Experience

Level Up Learning Experiences

Founder/Principal

September 2025 - Present (1 year 1 month)

Portland, OR

As Founder & Principal of Level Up Learning Experiences, I partner with business leaders to bridge the gap between AI awareness and practical implementation.

I design and deliver customized workshops that bring leadership teams together to learn AI tools and workflows tailored to their specific business

challenges, not just generic use cases. My approach focuses on what they already have (Microsoft Copilot, Claude, ChatGPT etc) and connects every training directly to time savings and ROI opportunities.

The result: teams that can support each other post-workshop, practical skills that integrate into daily workflows, and measurable business impact.

Third Gear Solutions

Founder/Principal

September 2025 - Present (1 year 1 month)

Technology and AI implementation strategy and consulting

Cirium

7 years 1 month

VP of Technology

July 2022 - March 2025 (2 years 9 months)

Portland, Oregon, United States

- Led enterprise-wide technology strategy development and execution, partnering with C-suite executives to align technology investments with 3- and 5-year business objectives
- Chaired Delivery Executive Team, driving cross-organizational priorities and ensuring measurable ROI on technology initiatives
- Managed \$25M technology budget with precision, achieving >30% cost optimization while improving service delivery and team engagement
- Championed development of unified Data Platform utilizing Spark, Databricks, and Apache Airflow, dramatically improving scalability and reducing onboarding time for data sources
- Collaborated with product leadership to design organizational model enabling innovation and experimentation, resulting in successful launch of first GenAI product leveraging RAG technology
- Drove cloud optimization initiatives, reducing annual spend from a position of 15% YoY increase to one of 5% YoY decrease through FinOps culture development
- Redesigned and scaled global technology workforce across multiple time zones, improving delivery velocity while reducing operational overhead
- Built resilient distributed engineering team model supporting experimentation, reliability, and consistent delivery
- Achieved significant improvements in engagement, retention, and operational coverage through strategic workforce optimization

Director Of Engineering

April 2019 - July 2022 (3 years 4 months)

Portland, Oregon Area

- Managed portfolio with \$2M annual capital investment and \$20M ARR, developing and presenting investment business cases with detailed resource allocation and ROI projections
- Successfully scaled US teams from 75 to 90 professionals during corporate austerity by leveraging strategic nearshore partnerships
- Led final stages of integration of AI/ML innovation incubator acquisition, successfully merging technology, product suite, and organizational culture
- Established global asynchronous working methodologies, ensuring blended team productivity and engagement
- Retained key talent and improved team morale during significant organizational challenges
- Built culture of continuous improvement and accountability across engineering organization

Manager, Site Reliability Engineering

March 2018 - April 2019 (1 year 2 months)

Portland, Oregon Area

- Managed strategic direction for 12-person SRE team supporting high-volume real-time data systems serving internal and external customers
- Delivered critical infrastructure initiatives including security improvements, disaster recovery planning and testing, and Infrastructure as Code consolidation
- Ensured enterprise-wide system uptime and operational resilience through proactive monitoring and incident response
- Worked with the best group of SRE Engineers known to humankind

Smarsh

6 years 8 months

Sr. Manager Site Reliability Engineering

July 2017 - March 2018 (9 months)

Portland, Oregon Metropolitan Area

QA Manager

August 2014 - July 2017 (3 years)

Portland, Oregon Metropolitan Area

QA Architect/Lead

December 2011 - August 2014 (2 years 9 months)

Portland, Oregon Metropolitan Area

Sr. QA Analyst

August 2011 - December 2011 (5 months)

Kerzner International

Sr. QA Analyst

February 2010 - August 2011 (1 year 7 months)

Multiply

QA Analyst

July 2008 - February 2010 (1 year 8 months)

Tracfone

SQA Tester

February 2008 - June 2008 (5 months)

NBCUniversal

Medical Editor/QA Analyst

July 2006 - February 2008 (1 year 8 months)

Education

Auburn University

Master of Arts - MA, English Language and Literature/Letters · (2004 - 2006)

University of Aberdeen

English, Literature and Linguistics · (1998 - 2002)
